5:00 p.m.

Reception

Highlighting the work of the Office of the State Superintendent of Education and Raise DC

Our Children, Our Community, Our Change

The Office of the State Superintendent of Education and Raise DC launched Our Children, Our Community, Our Change this spring to make the Early Development Instrument and other early childhood data actionable across the District. Our Children, Our Community, Our Change was developed with the premise that each of us has a stake in creating community conditions in which DC's young children and families can thrive. We have the opportunity to use these data to spark community conversations about the best policies, resources, collaborations, and programs to ensure our young children are on track for success in school and in life.

6:00 p.m.
