#LiveAtUrban
About the Urban Institute

- The Urban Institute is the trusted source for unbiased, authoritative insights that inform consequential choices about the well-being of people and places in the United States. We are a nonprofit research organization that believes decisions shaped by facts, rather than ideology, have the power to improve public policy and practice, strengthen communities, and transform people’s lives for the better.

OUR MISSION IS TO OPEN MINDS, SHAPE DECISIONS, AND OFFER SOLUTIONS THROUGH ECONOMIC AND SOCIAL POLICY RESEARCH.
On this webinar today...

Monique King-Viehland, Associate Vice President, Metropolitan Housing and Communities Policy Center, mkviehland@urban.org

Samantha Batko, Senior Research Associate, Metropolitan Housing and Communities Policy Center, sbatko@urban.org

Joanne Karchmer, Chief Impact Officer, All Home California, jkarchmer@allhomecalifornia.org

Andrea Bell, Director of Housing Stabilization, Oregon Housing & Community Services, Andrea.Bell@oregon.gov

What does **equity** mean in emergency rental assistance programs?
What does racial equity look like in emergency rental assistance programs?

- Outreach and engagement
- Program structure
- Dissemination

- Partner organizations
- Data collection & program monitoring
- Feedback & continuous improvement
Urban Institute’s Emergency Rental Assistance Prioritization Tool
Purpose of the Tool

- Part of the Framework for an Equitable COVID-19 Homelessness Response, intended to help local leaders decide where to prioritize and allocate rental assistance funds to minimize evictions and homelessness in a way that promotes racial equity.

- The ERAP index estimates the level of need in a census tract by measuring the prevalence of low-income renters who are at risk of experiencing housing instability and homelessness using neighborhood conditions and demographics, incorporating instability risk factors before the pandemic as well as the pandemic’s economic impacts.

- Updated in April 2021 with most recent data.

</tr>
</tbody>
</table>
Notes about the data

- Subindexes are weighted –
  - Housing subindex is weighted more heavily within the total index
  - People of color is weighted more heavily within the equity index
- Tracts are grayed out with no ELI renters
- We validated the index by testing indicator correlations, ground-truthing, and analysis of past evictions in every state and current (COVID-19 period) evictions in 13 cities

Limitations:
- Although updated, data is on a lag
- Single race indicator
- Highlights university census tracts
Features: Where to Prioritize Emergency Rental Assistance to Keep Renters in Their Homes

Search by

County

Continuum of Care

Emergency Rental Assistance Priority Index: 98th percentile (among Ohio tracts)

Housing Instability Risk Subindex: 98th percentile
Shares of: people living in poverty, renter-occupied housing units, severely cost-burdened low-income renters, severely overcrowded households, and unemployed people

COVID-19 Impact Subindex: 84th percentile
Shares of: adults without health insurance and low-income jobs lost to COVID-19

Equity Subindex: 96th percentile
Shares of: people of color, extremely low-income renter households, households receiving public assistance, and people born outside the US
Get the Data!

- Use the tool: [https://www.urban.org/features/where-prioritize-emergency-rental-assistance-keep-renters-their-homes](https://www.urban.org/features/where-prioritize-emergency-rental-assistance-keep-renters-their-homes)
- Data Catalog: [https://datacatalog.urban.org/dataset/rental-assistance-priority-index](https://datacatalog.urban.org/dataset/rental-assistance-priority-index)
How can you use the tool?

The tool can help you identify key areas within your jurisdiction where you can:

- Conduct additional outreach
- Partner with grassroots organizations
- Set eligibility criteria and preferences (e.g., give additional points or weight to applications)
- Monitor program metrics in respect to dissemination goals
ERAP: Rental Assistance, Homelessness Prevention and Racial Equity
Rental Assistance and Homelessness Prevention

- Homelessness Prevention is critical to the reduction of unsheltered homelessness
- Region lacked a common definition of homelessness prevention and metrics to evaluate outcomes, agreement on a service model and consistent level of services provided, and most programs are not well-targeted to households most likely to become homeless.
- New sources of federal funding created an opportunity and challenges to make progress toward aligning rental assistance and homelessness prevention as well as a robust set of services being offered.

Pilot Operational in Fremont, Oakland and in San Francisco later this week
## Regional Homelessness Prevention Continuum

Households need the same range of services at these three points and the system should be adequately funded to provide the right intervention regardless at which point the household seeks services.

Source: [https://housingequityframework.org](https://housingequityframework.org)
Goals:

- Reduce the number of households that are losing their housing.
- Reduce the racial disparity among residents who experience homelessness.

- Threshold income eligibility: Income no higher than 50% of AMI with prioritization for households <30% AMI.

- Prioritize households in targeted geographic zones identified in each county based on factors such as high incidences of homelessness, eviction, poverty, COVID-impact and rent burden will also receive higher priority for assistance. The geographic zones also become the focus areas for partnering with neighborhood-based organizations that provide trusted connection to the network.

- Use evidence-based assessment to target resources to households that have the highest likelihood of becoming homeless.
### Risk Assessment (common online platform for providers and applicants)

<table>
<thead>
<tr>
<th>Household</th>
<th>Income and Housing</th>
<th>Other Factors</th>
</tr>
</thead>
</table>
| • Household has children  
• Any children under 2  
• Someone in household is pregnant  
• Head of household is <25  
• Head of household is > 62  
• Recent change in household composition (death, divorce) | • Living in a targeted geographic area  
• Extremely low income  
• Recent reduction in income  
• Previous experience of homelessness  
• Doubled up and not the lease holder  
• Never had a lease or have a past eviction | • Adult with a disability  
• Recent Criminal Justice system interaction  
• Recent reintegration from an institutional setting  
• Not eligible for other federal assistance (such as unemployment) |
Outreach and Capacity Building in your non-profit community

Partner with Community-Based Outreach Networks
ERAP programs should rely on these established, trusted networks for effective outreach and service delivery.

- **Co-design outreach processes** with CBOs that serve the hardest hit communities. Use Urban Institute rental assistance targeting to refine outreach strategy – church announcements, door hangers, etc.
- **Build upon existing networks, programs, and contracts**
- **Simplify contracting processes** to allow small community-serving organizations to participate in outreach efforts.
- **Conduct outreach in multilingual, culturally sensitive formats** partnering with tenant groups, community groups, grassroots groups, groups that are deeply connected to harder to reach communities.
- **Offer access at common intersections with people at-risk of homelessness** including schools, daycare and after-care programs, food pantries, community health clinics, housing court, and institutional discharging and correctional system release settings.
Identify Racial Disparities in Outcomes

• Prioritize outreach and eligibility by zip code or census tract.

• Collect and report disaggregated race and ethnicity data on who was served by the program in a publicly available dashboard.

• Remove barriers that could disproportionately impact extremely low income, BIPOC households
  - Permit self-attestation and be as flexible as possible regarding verification documents
  - Allow documents to be uploaded as photos, not just Word or PDFs
  - Use multiple methods of intake and ongoing communication, including text messaging
  - Do not limit program participation to leaseholders
  - Simplify application process and language
  - Allow maximum months of coverage, if need for assistance persists
  - Be explicit on all program materials that undocumented residents are eligible for resources and that information on immigration status will not be asked for
  - Allow direct to tenant payments when landlords refuse to participate or fail to respond

OHCS Vision and Values

Statewide Consistency + Prioritization
Equity and Racial Justice
Preserve Housing Stability
Ease of Access
Effective Communication
Holistic Approach

OHCS Vision
Government 2.0 – Learning from CRF

- Improving upon 2020 rental assistance program design:
  - 18 different programs across the state with separate policies and procedures complicated service delivery and access
  - Decentralized design – variety of prioritization strategies
ERA Framework and Structure

- Public-facing portal:
  - Centralized and routed to appropriate CAA provider
  - Will help with de-duplication of benefits within ERA program across the platform
  - Waitlists vs. public applications
  - Prioritization factors ensures most disproportionately impacted by COVID and housing instability have priority access (NOT first-come/first-served)
Prioritization—Providing targeted assistance

- Methodology: Create prioritization index of six factors based on weighted totals from data collected from the Application and ERA Priority Index.
- At conclusion, all factor weighted points will be summed yielding a final number comparable across households. This number will be the prioritization score and will determine the placement of the household in the application queue.
