

On behalf of the Bread for the City, 11th Street Bridge Park, Martha's Table, and the Far Southeast Family Strengthening Collaborative, we want to thank you sincerely for your participation in the THRIVE East of the River pilot. You were one of approximately four hundred participants from Wards 7 and 8 that received financial assistance, weekly groceries, dry goods, and had the opportunity to work with a community navigator.

We continue to work with the Urban Institute (a nonprofit research organization based in DC) to improve our program and create a model for other DC communities and cities across the country. For those that have given consent, the Urban Institute will reach out with the opportunity to participate in two surveys and possibly an interview. If you agree to participate, the Urban Institute will offer an incentive for your time. With your consent, the Urban Institute will include your experience with THRIVE in the study anonymously.

The partner organizations are here to provide you with the following additional support and services:
