

U R B A N

I N S T I T U T E

2023 Summer Intern Program

We believe in the power of evidence to improve lives and strengthen communities.

Public policies work best when they are rooted in facts, and our research sparks solutions in programs and practice. Our analyses and recommendations help expand opportunities for all people, reduce hardship among the most vulnerable, and strengthen the fiscal health and effectiveness of government.

"Urban is a place where the work you do makes an impact in the world, and the community is made up of people who want to make positive change. Urban supported me every step of my internship and pushed me to learn"

-Sophia Weng, 2022 Research Intern

As an employee of the Urban Institute, your work will have an **impact**.

Engage in **rewarding** and **substantive**
work assignments that contribute to:

Education Policy

Health Policy

- ⊕ End of summer presentations, "Lightning Talks"

Full-Time Opportunities

Research & Policy Assistants

and **Analysts** are generally recent graduates responsible for assisting senior staff in various policy areas across the Urban Institute. They conduct literature reviews, analyses and programming tasks, as well as reporting research findings.

Urban also offers full-time opportunities for graduates interested in the **operational aspects** of research support: information technology, communications, finance, development, human resources and more.

Urban provides excellent benefits, including prepaid tuition assistance, generous retirement, annual leave and competitive salaries.
