

## Partial Repeal of the ACA through Reconciliation

### Coverage Implications for Iowa Residents

This fact sheet examines how a reconciliation bill similar to the one vetoed in January 2016 will affect health care coverage in Iowa. The estimates supplement two Health Policy Center reports: *Implications of Partial Appeal of the ACA through Reconciliation* (Linda J. Blumberg, Matthew Buettgens, and John Holahan) and *Partial Repeal of the ACA through Reconciliation: Coverage Implications for Parents and Children* (Buettgens, Genevieve M. Kenney, and Clare Pan). Information on data and methods is available in those reports.

Notes: ACA = Affordable Care Act; FPL = federal poverty level.

Columns may not sum to totals because of rounding.

FIGURE 2

**Uninsured Children in Iowa, 2019**

Thousands of children

Source: Urban Institute analysis using HIPSM 2016.

Notes: ACA = Affordable Care Act; CHIP = Children’s Health Insurance Program; MOE = maintenance of eligibility. Children are ages 18 and younger, following Medicaid/CHIP guidelines. Medicaid/CHIP eligibility under the “no MOE” scenario is at federal minima for all states under the 2016 reconciliation bill: 138 percent of the federal poverty level for children younger than 6 and 100 percent of the federal poverty level for children ages 6 to 18. If the MOE provision is eliminated, states would decide whether to reduce eligibility levels for children.
